The Edgar County Community Foundation serves as a conduit in providing support for valuable programs, resources and projects throughout our county. We match people who wish to give back to their community with causes they are passionate about supporting.

The Edgar County Community Foundation is positive about making our own corner of the world a better place to live now, and in the future. We help others invest their resources and funds where they count the most - at home - where they can benefit our families, friends and neighbors for many years to come.
